## PROJECT AND EXPERINCE

### Private Project

- **Developer of SLPOSTER.COM**

**SLPOSTERS** is a classified website built using WordPress. The website uses beaver builder and adifire them. For hosting purposes, we use hostinger. Also test the website.

- **Work with freelancer**

In my 2nd year of university, I worked with freelancer who works in five also who has level 2.I did analysis work and design work using Canva.

- **Build coffee bean simple website for Oman customer.**

On this web site I use HTML, CSS and Js language. Also did the hosting parts too.Also test the website.

### University Project

- **Create inventory management system using C# (.net)**

In this project we mainly used CRUD operation. we include sign up page, admin panel that can add member and do CRUD operation for item.

- Udate Version

In the second update, Include Trigger, Function, Procedure, View statement also used CRUD operation.For the database we use SQL server. Also, use the manual testing to check the all the functions are working.

- **Create air tickets Booking website using Java.**

On this web site we include sign up, admi Pannel that can add employee, then edit user, also user can buy ticket creating new account, also they can set time and date.

- **Create a simple website for sustainability goals.**

This is a simple web site. The website is created using HTML, CSS and Php.
